

July 28,2012

Postal Regulatory Commission  
901 New York Ave NW, Suite 200  
Washington, DC 20268

Reference: PRC Docket # MC2012-26

Dear Commissioners,

I am the franchisee/owner of The UPS Store in Lexington, SC, employing 6 people from our community. The post office is located adjacent to the back of our building. I am writing to ask that you disallow the United States Post Office's "enhanced" services to Post Office Box customers, specifically:

1. Acceptance of third-party parcels and other items from UPS, FedEx, DHL and other non-USPS carriers, a practice that has been prohibited for many years.
2. The new ability to use the street address of the Post Office where the Post Office Box is located, rather than the conventional "PO Box 123, Anytown, MA 01234."
3. The new ability of Post Office Box customers to use the "#123" designation instead of the conventional "PO Box 123" form of address.
4. E-mail / text message notification to PO Box customers of items received. ("Real Mail Notification")

These new business practices place the United States Postal Service in direct and unequal competition with thousands of small businesses across the country. For most store owners like me, my business is privately owned and represents the sole source of my income. In many cases, we have financed the purchase of the business with loans secured by our homes. This new form of competition from the USPS will result in significant loss of revenue and damage to my business. That will threaten not only my home, but also the jobs of the people I employ.

As a Commercial Mail Receiving Agency (CMRA), our business is regulated and inspected by the USPS. There is no other enterprise in our society where one competitor can regulate another, even to the point of requiring them to turn over their customer list on a quarterly basis. What would prevent them from soliciting our customers to provide cheaper service. Receiving packages to mail box customers takes up more time than just putting an envelope in the mailbox. I noticed the price for this service at the post office is more than half of what we charge. I can't afford to operate my business at the losses of the USPS, I have no idea where they get the money to cover such losses.

As a CMRA, we operate under other unfair rules, such as the ability of a postal customer to change his address from a PO Box to another address with a simple "Change of Address" form, while customers of a CMRA such as my store are prohibited from doing so. When a CMRA mailbox customer moves, we are required by the USPS to receive the customer's mail for six months following termination and cannot re-mail it without paying for new postage.

As noted in PRC Order No. 1366, “the Postal Service has not submitted an appropriate filing that describes the nature and implementing rules for these enhanced services.” The USPS failed to follow the rules in rolling out these new services, and made a unilateral decision and executed it without the necessary filings. What the USPS is doing is fundamentally wrong. A financially viable Post Office is an important part of our business, but not at our expense. I cannot sit by and watch the USPS launch a series of products and services specifically designed to take our customers. A relationship with the USPS is a careful balance of competition and support, and in this instance they have tipped the scales.

Thank you for your time and kind attention to this matter. Please do not hesitate to contact me if you have any questions or concerns.

Sincerely,

Tim Ivey
